1. **Time:** 10/06/2022
2. **Team member present**: Samuel, Thiện Tiến, Anh Thư, Minh Phúc
3. **Team member absent**: Minh Quang
4. **What went well?**
- Sketched UI (Welcome, Login, Sign up, Favorite, Register, Forgot Password, Profile screen), help team members visualize the user's operation screen to code
- Members completed the task on time.
5. **What went wrong?**
- There is no final database design template yet.
- Haven't decided which DBMS to use yet.
6. **What problem and what caused the problem?**
- Hard to contact with Minh Quang
- The members have focused on learning about front-end and back-end, so they haven't had time to learn about database structure design.
7. **What can be done differently in the next sprint to improve the project**
- Try to use Firebase or MySQL or MongoDB
8. **What lesson could we learn?**
- Know how to use the website "https://proto.io/" to sketch the UI.
- How to create simple UI
- Learn basic Javascript
- Learning to code User Interface by React Native
